

I have already learned:

- To recognise some keys on a keyboard including the letters of my name
- To choose which tools will be best to complete a task
- To change the size of writing on a screen
- To change the colour of writing on a screen

Vocabulary

KNOWLEDGE GEMS

I am going to learn:

- To use letter, number and space keys
- To use backspace to remove text
- To type capital letters
- To identify the toolbar and the bold, italic and underline tools
- To select by clicking and dragging
- To change the font of my text
- To use the undo button to fix mistakes

Outcome:

Create a poster with text that has been changed using the tools in the toolbar.

word processor	An app or program used to type words	
keyboard	A real or digital device with letters that you touch to type on a screen	
type	Pressing buttons on a keyboard to make letters appear on a screen	
cursor	The line or arrow on the screen that shows where you are typing	
toolbar	The place where you can choose tools to change the way your words look	
font	The shape and style of the letters you use	<p>words</p> <p>words</p> <p><i>words</i></p>

How computers work and how they are made.

Building Blocks to E-Safety

E-Safety Tips

- Stick to kid-friendly websites and apps with games and writing activities designed for your age group.
- If you see anything that makes you feel uncomfortable or confused online, tell a trusted adult right away.
- Remember to always be friendly and use kind words when communicating with others, just like you do in person.

Try it at home!

Use a word processor to create a poster all about your favourite things. Make sure to change the way that the text looks by using the toolbar.

"Let the music in your heart soar and dance, for when you create music, you give your dreams a chance!"
